

Testimonials

When my husband and I decided to move to a bigger home I had only one request—a big kitchen! To me that is one of the most important places in the home! Everyone seems to always congregate in the kitchen, family, friends, and then some. I shopped around and went to several places. Each place I went designed a kitchen layout. Images in Wood had the best design and was reasonably priced. I showed Joe pictures of the design of cabinets I wanted and the style I wanted to achieve. Joe designed the layout and did everything I asked and more. His plans were great! He made my decision easy. He actually listened to my requests and copied the cabinets I wanted to a tee. I feel I definitely got my money's worth. Images in Wood did a fantastic job in my home!

—Denise Kennedy, Holly

Don and I would like to thank Images in Wood for providing the lovely cabinets for our kitchen...They were good quality with finger pulls and built with many handy features. We were appreciative of the ideas Images in Wood provided on design and countertops and placement features. We felt the quality and construction of the cabinets were done in a professional manner with our convenience and ideas foremost. The workmanship is of the finest quality and the cabinets are durable and will be long lasting. The quality of the workmanship and the beauty of the cabinets are outstanding. The convenience of conferring with the local contractors was a bonus. We did not have to seek other firms out of town. We are happy with the results and proud of the projects.

—Don and Dee Bigge, Lamar

I am so grateful that we chose Joe Backes and Images in Wood to create our beautiful new kitchen cabinets and Avonite counters . . . Because we were doing almost all of the work in our kitchen ourselves, we examined the cabinets at a large do-it-yourself chain. Then we examined Joe's cabinets. To get even close to the quality of his cabinets at the chain would have meant special ordering. Then you would still have to install them yourself—and you still wouldn't have the beautiful special features that he offers; like crown molding, appliance garage, and any custom feature. Joe's work is extremely professional and amazingly affordable. He can take an old 1970's house like ours with less than perfect walls, and fit new cabinets to them as if they were born there. They are truly a work of art. Trusting Images in Wood and Joe Backes was the best decision we could ever have made when we decided to remodel.

—Jill Smith, Lamar

When my husband and I began to think about new cabinets for our kitchen, we felt that we would get the best value for our money if we went out of the area to a big chain store. We picked out cabinets we wanted and then received our quote. It was a big high and we could not afford all the extras.

Joe Backes stopped at our house and asked if he could give us a bid. Our initial thought was it would be very expensive because his cabinets are custom built and he has a local business here in Lamar. We agreed to let him bid our kitchen cabinets. When the bid from Images in Wood came back, it was less than the other bids we had received. We also got all the extras with Joe's cabinets, like pullout shelves in all the drawers. There were also a variety of cabinet choices and wood stains to choose from. All the cabinets were custom made and tailored to fit perfectly in our kitchen. The quality was outstanding. Working with Joe at Images in Wood was a pleasure. He was professional and courteous and quick to answer any of our questions. We are extremely happy with the quality of cabinets we received. Many people think that when you buy hometown that you will pay twice the price. However, with Images in Wood, it was just the opposite. We received twice the cabinets and a lot of extras that we would not have been able to afford with the other companies. We strongly recommend Images in Wood to custom build any type of cabinetry that you may need.

—Jason and Jodi Malterud, Lamar

Images in Wood, Joe Backes and Son custom built and installed cabinets for me. My house has been here long enough to have settled here and there. The cabinets were installed with precision and care and fit as though they were built in originally. They are made of beautiful hickory wood and their construction quality surpasses anything I found in name brand cabinets available to me. The clincher is they were also competitively priced!! I expect to enjoy them for years to come.

—Bernice Riemenschneider

Thank you so much for the wonderful job you did on making our kitchen so beautiful. We wanted a change and just could not imagine how to make it look different. It just amazed us when you gave us 3 options along with drawings! It was a hard decision to make but we have chosen the perfect one for us. It is finished and we couldn't be happier with how it all came together. We feel you and Michael both worked super hard to be sure everything was perfect. When I get up in the mornings now and see my new pretty kitchen I sometimes wonder if I am in the right home!

—Linda and Gary Longworth

We have seen first hand the workmanship and quality that Images in Wood of Lamar, CO crafts into their products. The finished products are truly outstanding innovative and are prime examples of what custom made cabinets are all about. We would recommend Images in Wood to anyone building a new home and who may want to renovate a kitchen or other rooms. We believe you will be highly pleased at the results of their efforts, as we were with our new kitchen cabinets.
